Strategic Report For the Half Year Ended 31 March 2023

Introduction

The Directors present their Strategic Report of Heylo Housing Secured Bond Plc ("the Company" or "HHSB") for the unaudited half year ended 31 March 2023.

Business review

The Company is wholly owned by Manifesto Technologies Limited, the ultimate parent company of Heylo Housing Group Limited (Heylo Group). Heylo Group is the parent of HHSB.

The parent oversees the activities of each Heylo Group company. HHSB is a property investment company that acquires residential properties that it leases to Heylo Housing Registered Provider Limited ("HHRP"), a fellow subsidiary, which in turn on leases those properties on a part buy – part rent basis to the Heylo Group's customers. HHSB also leases directly to third party tenants under Your Home product.

ResiManagement Limited (who provides management services to the Company) through its workforce continue to show teamwork, dedication, and commitment to enable the Company to navigate successfully through a second year of challenges caused by the pandemic. Following continued improvement of working practices and processes adopted from the previous year has enabled the Company to continue to stay up to date with property compliance and the customers' needs.

HHSB was established in 2018 and was awarded Investment Partner status by Homes England to participate in the "Shared Ownership and Affordable Homes Programme 2016 to 2021" ("SOAHP"). As at 31 March 2023, the Company had acquired 115 new build properties from housebuilders, and 6 with its Your Home product, with associated grant received of £2.7 million (2022 - £2.6 million).

HHRP, is a registered provider of social housing with the Regulator of Social Housing (registration number 4668).

Key Performance indicators

	2023	2022
Rent collection rate (%)	99	99

Since September 2022, collection rates continue to be at 99%, although the number of people moving into and out of arrears or onto an off-repayment plan has increased along with the intensity of arrears management work. Based on its traditional, tried and tested approach to arrears collection, and given Government imposed limitations on legal action through possession and eviction, throughout 2020, 2021, 2022 and into 2023, the Company has continued to mitigate the financial impacts of Covid upon some households through generous repayment plans and proactive dialogue with tenants who are in, or likely to face, distress; a form of forbearance that has so far delivered good performance outcomes for the business too.

Principal risks and uncertainties

The management of the business and the nature of the Company's strategy are subject to a number of risks. The directors have set out below the principal risks facing the business.

The directors are of the opinion that the risk management processes adopted, which involve review, monitoring, and where possible, the mitigation of the risks identified below, are appropriate to the business.

(a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The rental income from the property portfolio is due from many individual occupiers through HHRP. The Company reviews the creditworthiness of potential tenants prior to entering into contractual arrangements. Every occupier is assessed for affordability in accordance with the guidance from Homes England before entering into a lease. Provision is made in full where recovery of financial assets is, in the opinion of the directors, significantly uncertain.

Strategic Report (continued)
For the Half Year Ended 31 March 2023

(b) Interest rate cash flow risk

Interest rate cash flow risk is the risk that the future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates. The Company has no direct exposure to interest rates as all amounts owed to external bondholders are linked to inflation rather than interest rates. The Company's rental income streams are linked to inflation and so should move proportionate to the payments due under the Company's financial instruments. In addition, and as further mitigation, rental income would not be impacted by a fall in the Retail Price Index (RPI). The Company further manages this risk by monitoring cash flow projections on a regular basis to ensure that funds or appropriate facilities are available to be drawn upon as necessary.

(c) Capital risk management

The Company manages share capital, consisting of ordinary shares as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern. The capital structure will continue to be determined by ongoing funding requirements.

(d) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company has issued bonds and pays both interest and principal payments to its bondholders. The Company has granted security over its property portfolio in support of these bonds. The Company's borrowings are repayable on the relevant maturity of the bonds and accordingly the Company manages any refinance risk at maturity. A significant reduction in the value of the property portfolio or in the rental collection could impact on the Company's financial covenants. The Company aims to mitigate liquidity risk by operating with headroom to these covenants, by adhering to strict affordability criteria and through regular monitoring of its cash flow forecasts.

(e) House price inflation risk

Inflation may be higher or lower than expected. Investment cash flows are positively correlated to inflation and therefore increases/decreases to inflation (mainly House Price Index ("HPI") in the Company's case) compared to current projections would impact positively or negatively on the Company's future projected cash inflows. Furthermore, assumptions in relation to future HPI are central to the annual portfolio valuation and consequently significant increases or decreases in the rate of growth of HPI may materially impact the fair value of investment properties within the Company's portfolio. The Company provides sensitivities to its shareholders indicating the projected impact on the Company's Net Asset value ("NAV") of a number of alternative inflation scenarios. The Company uses a long-term view of inflation within its forecasts, benchmarked to independent analysis from valuation professionals.

(f) Contract risk

The performance of the Company's property investment portfolio is dependent upon each property's tenant meeting its contractual obligations. The Company is exposed to the risk that a number of its counterparties do not comply with the terms of the contract/leases and related obligations. The Company's mitigates this default risk by virtue of having a highly diversified portfolio in excess of 109 separately and independently tenanted properties - no single property or group of properties is material to the overall profitability of the Company or to its liquidity forecasts.

(g) Covid 19

Following the macroeconomic challenges of COVID 19 shutdown in 2020 and the return of COVID 19 restrictions at the beginning of 2021, the UK residential market has maintained and experiences strong growth. As per the market research, annual house price growth for the 2022 calendar year was 9.5% in September 2022, decreasing slightly from 10% in August. Prices were unchanged over the month from August, after taking account of seasonal effects. This is the first month not to record a sequential rise since July 2021. The company and its customers is exposed to financial risk from economic volatility experienced following COVID 19 such as mortgage costs increasing together with higher inflation, higher energy bills, impacts to cost of living and so on. The Company

Strategic Report (continued)
For the Half Year Ended 31 March 2023

aims to mitigate these financial risks by operating with headroom to its covenants, by adhering to strict affordability criteria and through regular monitoring of its cash flow forecasts. The Company has continued to mitigate the financial risks of impairment of its customers through generous repayment plans and proactive dialogue with tenants who are in, or likely to face, distress; a form of forbearance that has so far delivered good performance outcomes for the business too.

(h) Climate change

We have identified the potential physical and transitional risks and opportunities presented by rising temperatures and climate change for our business and have also considered the scale of this risk to the Company. Climate change is not a principal risk for the Company for the half year ended 31 March 2023, but we have identified the climate transition as an emerging risk due to its intensifying importance to all stakeholders.

(i) Regulatory Compliance

Non-compliance results in measures of intervention, loss of status and ultimately prohibits the Company to reinvest proceeds into acquiring the sites the business has in its pipeline to continues its journey. The Board and governance structure is in place and continuously being reviewed and improved so it is effective to managing this risk. There is ongoing compliance monitoring and independent advice and assurance are provided by external consultants and workforce of ResiManagement Limited in areas such as risk management and governance.

(j) Asset Supply

It is recognised that the Company operates in a market where it acquires properties which are impacted by rising costs following labour and material shortages which as such affects both purchase prices and the customer selling prices. Also, the inability to meet targets set out in its business plan to acquire affordable housing units to help the company reinvest and continue to operate as a going concern can result in reputational damage and knock on impact of generating less income than expected. As such to mitigate this risk, management monitor activity through Investment Committee and its cash flow forecasts. Weekly meetings with housebuilders and Homes England allow the Company to be agile in its approach to reinvestment. To this end, the Company as well as ResiManagement Limited mitigates this risk through review of housebuilder contract assumptions with its solicitor and focuses on increasing strategic partnerships with new and existing housebuilders, Heylo Housing Registered Provider Limited (HHRP), councils and Homes England to meet the challenging external environment.

The Company believes that its liquidity position, its business model, diversified portfolio and its focus on risk mitigation combined with operational cash and funding reserves, offer a significant degree of protection to the business.

Strategic Report (continued) For the Half Year Ended 31 March 2023

S172 statement: Directors duty to promote the success of the Company

Engagement with key stakeholders

Suppliers

The Company depends on the capability and performance of their suppliers, contractors, and other partners such as small businesses to help deliver the services needed to facilitate daily operations and to provide a professional service to our customers. The Company is focused on working with reputable suppliers that adopt the highest governances and employment practices in their organisations. The Company recognises the importance of complying with contractual terms and conditions in relation to payment terms and paying suppliers on time.

Customers Communications

Heylo communicates with customers in the following ways:

- Direct staff contact via email, direct dial and a customer call centre to manage routine enquiries ranging from sales through to post sale lease and property enquiries.
- Welcome and induction materials for new customers.
- Website FAQs and info email addresses to route more complex enquiries to relevantly skilled team members.
- Customer feedback and satisfaction via an annual survey of all residents, Trust Pilot and a complaints and compensation policy overseen by the Regulator of Social Housing Ombudsman Service.
- Attendance at and support of estate based resident groups.
- Interventions to help customers manage or improve services from third party suppliers such as house builders and estate managing agents.

Heylo's customer communication strategy reflects its relatively light touch and remote relationship with customers who in the main:

- Are working households (and less likely to be benefit dependent or vulnerable) who are seeking a
 performance, Value for Money and hence transactional rather than protective relationship with their landlord.
- Have been able to exercise a reasonable level of choice in the housing tenure and property offered to them.
- Have been able to exercise a reasonable level of choice in which housing provider has offered them shared ownership accommodation.
- Exercise a reasonable level of choice over who they buy key services from, given the HHRP and Heylo Housing Group model does not and does not seek to impose a direct estate and service charge management service, as is the case with traditional housing association providers. Where possible, HHRP and Heylo Housing Group Limited (Heylo) will support customers to exercise the Right-to-Manage or Right to Appoint a Manager, as permitted under Landlord and Tenant legislation and especially where shared owners are receiving poor service by agents and/or Freeholders which cannot or is unlikely to be rectified via First Tier Tribunal or complaints management.

Heylo aims to offer a fair, accountable and standardised form of service to all customers contracts via its written and published policies and procedures and through the use of a standard form lease which has been drafted to comply with regulatory and statutory requirements including the Landlord and Tenant Act 1985 and where applicable, the Homes England (HE)'s Capital Funding Guide. The sales process, leases and welcome letters provided by Heylo ensure customers are made aware at the outset of their relationship with the business of their rights and responsibilities and of the services and charges they can expect to pay. If and where any services are directly delivered by HHRP, shared owners will be provided with details on how to make contact to request those services. Heylo continues to be vigilant regarding the performance of third party managers in the delivery of health and safety and fire risks and has intervened to mitigate or remove the impact of recent cladding and other fire risk remediation works.

Strategic Report (continued) For the Half Year Ended 31 March 2023

S172 statement: Directors duty to promote the success of the Company (continued)

The Environment

The Company invests predominantly in new build properties, which have a higher energy efficiency than the general stock of housing in the UK. The Company continues to focus on the sustainability of its portfolio.

Shareholders

The Company has only one Shareholder.

Employees

The Company has no employees.

Future developments

The Company continues strong performance on rental income collection over the past years despite the economic turmoil that has affected the market place in which it operates. There has been many opportunities for the business to continue this journey. To ensure that is prioritises appropriately, there are annual strategic reviews which look to in the next 5 years. This means that the business can work to manage its existing portfolio and future pipeline that is in place to ensure the company reinvests into high yielding residential properties provided on a part buy – part rent basis. The plans are also reviewed to reflect the changes in performance, relationships, and the macroeconomic environment. Further, it is recognised that the Company operates in a market where it acquires properties which are impacted by rising costs following labour and material shortages which as such affects both purchase prices and the customer selling prices. To this end, the Company as well as ResiManagement Limited, continue to strive to improve existing relationships with housebuilders and create partnerships with new housebuilders and enter where appropriate long term agreements.

12 June 2023

Directors' Report For the Half Year Ended 31 March 2023

The directors present their report and the unaudited financial statements for the half year ended 31 March 2023. The address of the registered office is 6 Wellington Place, Fourth Floor, Leeds, England, LS1 4AP and the company's registered number is 11222614.

Results and dividends

The profit for the period, after taxation, amounted to £453k (31 March 2022 – loss of £407k). directors do not recommend the payment of a dividend (31 March 2022 - No dividend).

Overview and principal activities

The Company is a property investment company that acquires residential properties that it leases to Heylo Housing Provider Limited (HHRP), a fellow subsidiary, which in turn on leases those properties on a part buy – part rent basis to the Heylo Group's customers. HHSB also leases directly to third party tenants under Your Home product.

Details of the Company's objectives and policies for financial risk management and its exposure to credit risk, interest rate cash flow risk, capital risk management, liquidity risk, inflation risk, contract risk, Covid 19 and climate change are provided in the Principal risks and uncertainties section of the Strategic report.

Directors

The directors who served during the period were:

J P Conway A W Géczy G P C Mackay

Future developments

The business strategy of the Company is to invest in properties provided as shared ownership housing to generate future income through rent and future sales.

Internal controls and risk management environment

The directors are satisfied that the Company as well as ResiManagement Limited (who provides management services to the Company) operate a robust internal control and risk management environment. In particular, there is an extensive set of policies and procedures supporting how the day-to-day business operates and is managed. These policies and procedures are reviewed regularly and updated as appropriate to reflect changes in the market as well as enhancements on how the Company delivers to HHRP and its customers.

Qualifying third party indemnity provisions

The group parent has put in place qualifying third party indemnity provisions for all of the directors of Heylo Group, and each of its group companies, which remain in force at the date of this report.

Events after the reporting date

On 7 July 2022, Heylo Housing Registered Provider Limited (HHRP) was first placed on the Gradings Under Review list. On 21 December 2022, HHRP received the Regulatory Judgment that rated HHRP as G3/V3. Whilst HHRP was disappointed with this outcome, it is committed to working alongside the Regulator to address their concerns and bring HHRP back to compliance as soon as possible.

The RoSH in its Regulatory Judgement highlighted that under the existing structure that a deterioration of financial position in a Heylo Group company could trigger a requirement for HHRP to surrender its leases. In particular, while HHRP may be able to take further steps to proactively monitor risks relating to the financial position of other group members, its ability to enact mitigations if risks in a group company are identified is limited because it requires the agreement of other group companies and consideration of their interests and priorities. Simply, the RoSH's decisions makes clear that a restructuring is required as under its current business model HHRP pose a

Directors' Report (continued)
For the Half Year Ended 31 March 2023

Events after the reporting date (continued)

significant risk to HHRP's ability to protect its social housing assets and ensure its long-term viability.

Following a number of meetings with the Regulator in early 2023, a proposed restructure to the Heylo Group has been proposed, along with a second detailed Voluntary Undertaking and Action Plan in January 2023. This proposal is currently being reviewed by the RoSH, and work is underway to deliver the required changes under this plan. HHRP will continue to work collaboratively with the Regulator in order to ensure its governance and financial viability requirements are met in full with a return to compliance as soon as possible.

An assessment was performed as to the implications to the Company and leases held through HHRP and the directors reached the conclusion that there was no impact on the going concern status of the Company. The Company has sufficient resources to continue to trade and options are being actively pursued to restructure the Heylo Group in order that HHRP can comply with governance and viability standards.

Going concern

In determining the appropriate basis of preparation of the financial statements, the directors are required to consider whether the Company can continue in operational existence for the foreseeable future. The financial statements have been prepared on a going concern basis which assumes that the Company will be able to meet its liabilities as and when they fall due for the foreseeable future. As at the balance sheet date, the Company has net current assets of £1.3m (31 March 2022: £1.4m) and net assets of £3.2m (31 March 2022: £3.3m). The Company has cash at bank and in hand of £1.0m (31 March 2022: £0.9m). The directors are satisfied that the Company has sufficient liquidity to meet its current liabilities and working capital requirements.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

1. General information

Heylo Housing Secured Bond Plc ("the Company") is a public company, limited by shares, incorporated in England and Wales under the Companies Act 2006. The address of the registered office is 6 Wellington Place, Fourth Floor, Leeds, England, LS1 4AP and the company's registered number is 11222614. The nature of the Company's operations and its principal activities are outlined in the Directors' Report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with International Financial Reporting Standards in conformity with the Companies Act 2006 ('IFRS').

The presentation currency is pounds sterling. All amounts are rounded to the nearest thousand (£'000).

The preparation of financial statements in compliance with IFRS requires the use of certain critical accounting estimates. It also requires Company management to exercise judgment in applying the Company's accounting policies.

In preparing the financial statements, the Directors have considered the impact of the physical and transition risks of climate change and identified this as a principal risk as set out on pages 1 to 3, but have concluded that it does not have a material impact on the carrying values of investments, and the recognition and measurement of the assets and liabilities in these financial statements as at 31 March 2023.

As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so. Consequently, the directors are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

The following principal accounting policies have been applied:

2.2 Impact of new international reporting standards, amendments and interpretations

The unaudited Half Yearly Financial Statements have been prepared using accounting policies consistent with IFRS as adopted by the EU and in accordance with IAS 34 'Interim Financial Reporting' as adopted by the EU, and using accounting policies and methods of computation consistent with those applied in the preparation of the Company's Accounts for the unaudited half year ended 31 March 2023.

2.3 Revenue

Revenue comprises rental income and first tranche sales of shared ownership properties. Revenue is shown net of value added tax. Rentals are recognised on a straight-line basis over the lease term. Future changes in the level of lease receivable caused by inflation will be recognised as an adjustment to rental income.

Property sales consist of one performance obligation – the transfer of property to the shared owner. The transaction price is fixed and specific in the sales contract. Revenue on first tranche sales is recognised at a point in time, when control of the property passes. Control is considered to pass on legal completion of the property sale. The structure of the Heylo Housing Registered Provider (HHRP) leases are such that HHRP is only required to pay onto the Head Landlord (i.e. the Company) the rental income (and other income) it receives under the underlying shared ownership leases.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

2.4 Operating costs

Operating costs comprise costs relating to the first tranche sale portion of newly acquired shared ownership properties. These costs include a share of expenditure incurred for acquisition of those properties in proportion to the first tranche percentage sold, direct overheads and other incidental costs incurred during the course of the sale of those properties.

Operating costs also include direct property expenses related to asset management and leasing activities.

2.5 Finance costs

Finance costs are charged to the Statement of Comprehensive Income over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated financial instrument.

2.6 Current and deferred taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in the Statement of Comprehensive Income, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the United Kingdom where the Company operates and generates income.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amount for financial reporting purposes at the reporting date.

Deferred tax balances are recognised in respect of all temporary differences that have originated but not reversed by the Statement of Financial Position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.7 Investment property

Investment properties are initially recognised at cost, including directly attributable transaction costs when title passes. Subsequently, Investment property is carried at fair value determined annually by external valuers and derived from the current market rents and investment property yields for comparable real estate, adjusted if necessary for any difference in the nature, location or condition of the specific asset. The fair value is determined to be at Level 3 of the fair value hierarchy outlined in IFRS 13 Fair Value Measurement. There have been no transfers between levels of the fair value hierarchy. No depreciation is provided. Changes in fair value are recognised in the Statement of Comprehensive Income.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

2.8 Investment property (continued)

The Company has assessed that the highest and best use of its properties does not differ from their current use.

Derecognition of the relevant portion of the property takes place through subsequent staircasing. The difference between the net disposal proceeds and the carrying value of the related proportion of the asset disposed is recognised in profit or loss in the period of recognition.

All of the investment property relates to the Company's share of the properties which they control and retain legal title.

Shared ownership

Shared ownership is where initially a long operating lease on a property is granted through the sale of an initial portion to the occupier, in return for an initial payment (the first Tranche). Initial sales are included within revenue and the related proportion of the cost of the asset recognised as cost of sales.

Shared owners have the right to acquire further tranches (staircasing) and any surplus or deficit on such subsequent sales are recognised in the Statement of Comprehensive Income as a part disposal of Investment properties.

2.9 Inventories

Inventories relate to the portion of the properties that will be sold as the initial sale enabling the Company to enter into a shared ownership agreement. In accordance with IAS 2 Inventories, they are held at the lower of cost and net realisable value.

2.10 Dividends

Final dividends are recognised when declared and approved by the shareholders at an annual general meeting and interim dividends are recognised when paid. The Company is restricted to make any other distributions from non-distributable reserves in line with the Note Programme. The government grant income received by the company is classified in the non-distributable reserves.

2.11 Financial instruments

The Company applies the recognition and measurement provisions of IFRS 9 'Financial instruments' and the disclosure requirements to account for all its financial instruments.

Financial assets

Financial assets comprise basic trade and other receivables and cash.

Trade and other receivables

Trade and other receivables are measured at amortised cost using the effective interest rate method.

Financial assets that do not have a significant financing component are measured for impairment purposes using a simplified lifetime expected loss approach.

Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

Financial liabilities

Financial liabilities primarily comprise indexed linked bond issues on the Main Market of the London Stock Exchange. They are carried at historic cost plus a bi-annual increase dictated by the original bond documentation which is calculated by reference to the LPI (Limited Price Indexation) index. The fair value is determined to be at Level 1 of the fair value hierarchy outlined in IFRS 13 Fair Value Measurement for indexed linked bond issues.

Trade payables

Short term payables are measured at the transaction price.

2.12 Government grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received. Grants relating to the acquisition of shared ownership investment properties are recognised immediately as income to compensate for the reduction in fair value of the investment property. Accordingly, the grant income is adjusted from revaluation gains or loss reported in the Statement of Comprehensive Income. Prior to satisfying any performance obligations related to grant (which includes acquisition of investment property, application for government funding and compliance of capital funding guide), such grants are held as a liability (deferred income) on the Statement of Financial Position.

In some circumstances, typically when a Shared Owner staircases, there arises an obligation to repay the grant to the relevant government body. This is treated as a contingent liability until the conditions for repayment are expected to apply, in which case the amount repayable is recognised as a liability on the Statement of Financial Position and deducted from the measurement of any gain on the staircase transaction.

2.13 Judgements in applying accounting policies and key sources of estimation uncertainty

The Company makes certain estimates and assumptions regarding the future. Estimates and judgements are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

For investment property valuations management engaged the services of third party independent valuers and worked with them to refine assumptions throughout the valuation exercise. Management also reviewed the principal iterations of the valuation models prior to agreeing the fair value of investment properties presented in the financial statements.

The Company estimates the proportion of shared ownership properties that will be sold as first tranche sales and therefore classified as inventory rather than investment property. The assumptions on which the proportion has been based include, but are not limited to, the affordability of the shared ownership properties, and the Company's general experience to date of first tranche shared ownership sales.

The Company is restricted to declare or pay dividend to a direct or indirect holder of its share capital, in cash or otherwise, or make any other distributions from it's distributable and non-distributable reserves in line with the Note Programme. The government grant income received by the company is classified in the non-distributable reserves.

The measurement of a deferred tax asset or liability reflect the tax consequences of assuming that the carrying amount of investment property will be recovered entirely through sale.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

3. Segmental information

In determining the Company's operating segment, management has primarily considered the financial information in the internal reports that are reviewed and used by the Board of Directors (in aggregate the chief operating decision maker) in assessing performance and in determining the allocation of resources. The financial information in those internal reports in respect of revenue and expenses has led management to conclude that the Company has a single operating segment, i.e., generating rent income and capital returns from investment properties.

All revenue from continuing operations is attributable to, and all non-current assets are located in the country of domicile of the Company, the United Kingdom.

The Company acquires residential properties that it leases to HHRP, a fellow subsidiary, which in turn on leases those properties on a part buy - part rent basis to ultimate tenants. There is no individual customer/tenant of HHRP that contributes greater than 10% of total revenue.

4. Revenue

	Half year ended 31 March 2023 £000	Half year ended 31 March 2022 £000
Gross rental income First tranche sales	253 105	239 250
	358	489

5. Operating costs

31 March 2023 £000	31 March 2022 £000
54 107 ———	54 220
161	274
	£000 54 107

Notes to the Financial Statements For the Half Year Ended 31 March 2023

6. Gain/(loss) on disposal of investment properties

	Half year Ended 31 March 2023 £000	Half year ended 31 March 2022 £000
Gain/(loss) on disposal of investment properties	141	(11)

7. Directors remuneration and staff costs

The Company has no employees. The directors did not receive any remuneration; however, they are considered as key management personnel within the Company. Any applicable remuneration including salary and employee benefits would only be through their employment by ResiManagement Limited. As detailed in the related parties note, the Company is in a long-term management agreement with ResiManagement Limited, a company with common shareholders and directors to the Company's parent, Heylo Housing Group Limited.

8. Interest payable and similar expenses

	Half year ended 31 March 2023 £000	Half year ended 31 March 2022 £000
Bond interest payable	1,569	742

Bond interest payable includes interest capitalised as part of principal amounts in accordance with the terms of the bonds. Bond interest indexation payable has been added to the bond principal amounts.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

9.	Taxation	Half year ended 31 March 2023 £000	Half year ended 31 March 2022 £000
	Total current tax	-	-
	Deferred tax Deferred tax on revaluation of properties	381	(79)
	Taxation charge	381	(79)

In the Spring Budget 2021, the UK Government announced an increase in the corporation tax rate from 19% to 25% from 1 April 2023. The rate was substantively enacted on 24 May 2021 and as such the deferred tax balances have been calculated in full on temporary differences under the liability method using the rate expected to apply at the time of the reversal of the balance. As such, the deferred tax assets and liabilities have been calculated using a 25% (2022 - 19%, 25% or a blended rate) as appropriate.

10. Investment property

The Company acquired properties for £14.7 million. Investment properties have been valued at £22.3 million under the Existing Use Value for Social Housing (EUV–SH) methodology.

The Company's investment properties comprise of 115 new build and 6 second-hand homes primarily located in the North of England and East Anglia.

11. Inventory

	Half year ended 31 March 2023 £000	Half year Ended 31 March 2022 £000
Shared ownership properties	118	154

An expense of £107k (31 March 2022: £220k) has been charged to the income statement in the period on first tranche cost of sales. There were no write-downs (31 March 2022: £Nil) or reversal of prior period inventory write-downs (31 March 2022: Nil). No inventories are carried at below cost or net realisable value.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

12. Trade and other receivables: Amounts falling due within one year

	Half year ended 31 March 2023 £000	Half year ended 31 March 2022 £000
Trade receivables Amounts owed by group undertakings Other receivables	41 310 -	8 316 87
	351	411

13. Financial instruments

Financial accets	Half year ended 31 March 2023 £000	Half year Ended 31 March 2022 £000
Financial assets Financial assets measured at amortised cost	1,313	1,360
Financial liabilities Financial liabilities measured at amortised cost	18,766	16,598

Financial assets that are debt instruments measured at amortised cost comprise cash and trade and other receivables

Financial liabilities measured at amortised cost comprise trade and other creditors, accruals and secured bonds. The total interest expense recognised in these financial statements measured at amortised cost is included in Note 8. The secured bonds have a maturity date of 30 September 2028.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

14. Trade and other payables

	Half year ended 31 March 2023 £000	Half year ended 31 March 2022 £000
Amounts owed to group undertakings	5	37
Other payables Accruals	116 17	57 40
	142	134

Amounts owed to group undertakings are interest free and repayable on demand.

15. Loans and other payables

Half year	Half year
ended	ended
31 March	31 March
2023	2022
£000	£000
19,035	16,944
(412)	(479)
18,623	16,464
	ended 31 March 2023 £000 19,035 (412)

During the financial period ended 30 September 2019, the Company issued index linked bonds with repayment date of 29 September 2028 (the "Bonds"). The Company sold £15,424,400 of Bonds to investors and retains £4,575,600. The Bonds are listed on the Main Market of the London Stock Exchange and are indexed according to an LPI formula, calculated by reference to RPI with a base indexfigure from February 2018. The Bonds have asset cover and debt service cover covenants and these were in compliance at 31 March 2023 period end as well as at the time of release of the financial statements for the half year ended 31 March 2023. The Bonds are secured on the properties of the Company.

On each interest payment date (in March and September), the amount of the Bonds increases in accordance with the LPI Index and the 1.625% interest rate is payable on the indexed amount. During the period, increases in accordance with the LPI Index were £1,414k and the interest payable was £154k, giving a total interest expense in the period of £1,569k, shown as interest costs in the Company's income statement.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

16. Deferred taxation

The provision for deferred taxation is made up as follows:

	Half year ended 31 March 2023 £000	Half year ended 31 March 2022 £000
Capital gains	1,758	2,070

17. Share capital

	Half year ended 31 March 2023 £000	Half year ended 31 March 2022 £000
Allotted, called up and fully paid shares classified as equity		
12,500 (2021 - 12,500) Ordinary shares of £1.00 each	13	13
Allotted and called up shares classified as equity		
37,500 (2021 - 37,500) Ordinary shares of £1.00 each	37	37
	50	50

Authorised share capital: 50,000 Ordinary shares of £1.00 each.

The shares have attached to them full voting, dividends and capital distribution rights.

Notes to the Financial Statements For the Half Year Ended 31 March 2023

18. Reserves

Share

capital

Called up share capital reserve represents the nominal value of the shares issued.

Retained earnings

Retained earnings represents cumulative profits or losses net of dividends paid and other adjustments excluding non-distributable reserves.

Non-distributable reserves

Non-distributable reserves represent the profit or loss for the period which is not distributable. This relates to investment property revaluations, the associated deferred tax and the government grant income.

19. Contingent liabilities and commitments

The Company has received government grant funding of £2.7 million from Homes England to support the delivery of shared ownership homes. No government grant funding has been received in the current year and no government grant funding is receivable as well. All government grant funding received previously have been utilised to purchase properties.

In some circumstances, typically when a Shared Owner staircases, there arises an obligation to repay the grant to the relevant government body. This is treated as a contingent liability until the conditions for repayment are expected to apply, in which case the amount repayable is recognised as a liability on the Statement of Financial Position and deducted from the measurement of any gain on the staircase transaction. As at the period-end date, £117,006 of liabilities were recognised within other creditors in note 14.

20. Related party transactions

The Company has entered into a long-term management agreement with ResiManagement Limited, a company with common shareholders and directors to the Company's parent, Heylo Housing Group Limited. Under the management agreement the Company pays fees to ResiManagement Limited for the provision of asset sourcing and management services to the Company.

Heylo Housing Registered Provider Limited ("HHRP") is a related party of the Company. The Company owns the investment properties within its portfolio. It leases them to HHRP, another wholly owned subsidiary of Heylo Housing Group Limited, which will in turn onward lease the properties to customers. The agreements with HHRP stipulate that all rent and sales receipts from those properties will be directly attributable to the Company. HHRP is a registered provider regulated by the RSH (Regulator of Social Housing).

21. Events after the reporting date

On 7 July 2022, Heylo Housing Registered Provider Limited (HHRP) was first placed on the Gradings Under Review list. On 21 December 2022, HHRP received the Regulatory Judgment that rated HHRP as G3/V3. Whilst HHRP was disappointed with this outcome, it is committed to working alongside the Regulator to address their concerns and bring HHRP back to compliance as soon as possible.

The RoSH in its Regulatory Judgement highlighted that under the existing structure that a deterioration of financial position in a Heylo Group company could trigger a requirement for HHRP to surrender its leases. In particular, while HHRP may be able to take further steps to proactively monitor risks relating to the financial position of other group members, its ability to enact mitigations if risks in a group company are

Notes to the Financial Statements For the Half Year Ended 31 March 2023

22. Events after the reporting date (continued)

identified is limited because it requires the agreement of other group companies and consideration of their interests and priorities. Simply, the RoSH's decisions makes clear that a restructuring is required as under its current business model HHRP pose a significant risk to HHRP's ability to protect its social housing assets and ensure its long-term viability.

Following a number of meetings with the Regulator in early 2023, a proposed restructure to the Heylo Group has been proposed, along with a second detailed Voluntary Undertaking and Action Plan in January 2023. This proposal is currently being reviewed by the RoSH, and work is underway to deliver the required changes under this plan. HHRP will continue to work collaboratively with the Regulator in order to ensure its governance and financial viability requirements are met in full with a return to compliance as soon as possible.

An assessment was performed as to the implications to the Company and leases held through HHRP and the directors reached the conclusion that there was no impact on the going concern status of the Company. The Company has sufficient resources to continue to trade and options are being actively pursued to restructure the Heylo Group in order that HHRP can comply with governance and viability standards.

23. Controlling party

The Company is wholly owned by Manifesto Technologies Limited, the ultimate parent company of Heylo Housing Group Limited (Heylo Group). Heylo Group is the parent of HHSB. G P C Mackay is the ultimate controlling party.

The smallest group in which the Company is consolidated is that headed by Heylo Housing Group Limited, and the largest group in which the Company is consolidated is that headed by Manifesto Technologies Limited, with both companies incorporated and registered in the United Kingdom. The consolidated accounts of Heylo Housing Group Limited are available to the public from its registered office, 6 Wellington Place, Fourth Floor, Leeds, England, LS1 4AP.
